

ISEF Steel Forgings is an Italian company active for more than half a century and for 4 generations in the production of forged pieces in carbon, alloyed and stainless steel drop-forgings.

ISEF produces **forged pieces weighing from 1 to 70 Kg complete with heat treatments and mechanical workings, including finishing and assembly.** Its products are mainly used in the **lifting and safety sectors, for industrial and agricultural machinery, automotive, railway and oil & gas industry.** ISEF operates on the international market; in fact **more than 70% of its turnover comes from foreign markets,** in particular: Germany, France, Great Britain, Norway, Holland, Finland and Denmark both through its direct sales department and through a network of agents.

ISEF's development and its growing success on the international market are the result of a strong production system based on five fundamental values:

- **Technical competence**
- **Flexibility in managing orders of various sizes**
- **Recognized and certified quality**
- **Propensity for innovation**
- **Competitiveness**

Main figures:

- **Turnover: around 16 Mn €**
- **Employees: 35**
- **Forging: 4 production lines with drop forging press from 2000 to 6000 Tons**
- **Dies production: 4 Workcenter with 5 axes machines and CAM systems**

ISEF has **ISO 9001: 2008** quality system certification and also has additional product certification with **TUV AD2000 Merkblatt, Lloyd's Register and Deutsche Bahn**
